

# JAVASCRIPT INSTRUCTOR

## FULL-TIME REMOTE

At Grand Circus, we train students for jobs in Michigan's fastest-growing tech companies. We know that anyone can be a developer, so we're passionate about educating career transitioners in coding and other skills that lead to high-growth careers. Come make a huge impact with us as our new JavaScript Instructor!

### WHAT DOES AN INSTRUCTOR DO?

Grand Circus instructors help change students' lives by sharing their developer skills and expertise. Instructors work closely with students and a team of Grand Circus teaching assistants, program managers, the Bootcamp Delivery Manager to ensure that students have all of the technical skills they need to be career-ready at the end of their bootcamp. Instructors are responsible for the technical know-how of their students; it is the role of the instructor to help students get the JavaScript and React skills that they will need not just to truly be successful on the job, but to be enthusiastic contributors to the tech community overall.

In action, this means that instructors are responsible for:

- Leading daily classroom activities from technical lecture, to labs, to review sessions
- Providing feedback to students
- Working with program managers, teaching assistants, and the Bootcamp Delivery Manager to respond to student feedback
- Responding to student inquiries on Slack

- Communicating with program managers and the Bootcamp Delivery Manager about student progress
- Providing real-world examples and context for lessons
- Building a supportive classroom environment
- Adjusting curriculum and content to adapt to student and/or employer needs, in coordination with the Content Owner
- Sharing passion and enthusiasm for development

## SO, WHAT ARE THE PERKS?

There are a lot of wonderful things to say about being a Grand Circus instructor. It's hard to beat the feeling that accompanies alumni reaching out to tell you they landed a great new job because of what you taught them. It's also hard to beat that warm-and-fuzzy feeling that happens when you see it finally click for a student. It also doesn't hurt that you're essentially shaping the minds of an army of newbie developers. Want even more? Check out [our careers page](#), plus...

- Competitive compensation
- Health benefits for full time employees
- Regular feedback for instructional growth
- Becoming a part of the nerdiest, coolest team at Grand Circus

## WHAT ARE WE LOOKING FOR?

We're looking for someone to join our team full-time, on a contract or employment basis, to teach daytime remote JavaScript bootcamps.

When it comes to skills, we're looking for an instructor who:

- Can demonstrate advanced knowledge of JavaScript and Front End technologies
- Has strong familiarity with React

- Has 2 or more years of professional software development experience
- Communicates complicated programming concepts in beginner-friendly language
- Is passionate about mentoring and/or teaching
- Cares deeply about community
- Obsesses about preparation and organization
- Is open to giving and receiving feedback
- Can handle the fast pace and quick changes of startup life

It would be awesome if our new instructor also...

- Has a degree in Computer Science
- Has 3 – 5 years of teaching experience
- Has worked on open-source projects
- Has experience with cloud services and serverless computing

## HOW TO APPLY:

If this position sounds right for you, we're so excited to meet you!

Email [careers@grandcircus.co](mailto:careers@grandcircus.co) with your resume and your answers to the following questions:

- What experiences in your life make you uniquely qualified for this position?
- One of Grand Circus' [core values](#) is “anyone can be a developer.” What does this mean to you?

Please use the subject line **JavaScript Instructor**.
